PROFESSIONAL SUMMARY

AI Engineer and AI Backend Developer with experience building Generative AI applications, Multi-Agent Systems, RAG pipelines, Conversational AI platforms, Computer Vision solutions, and scalable AI backends. Skilled in developing production-ready AI systems using LLMs, FastAPI, Python, YOLO, OpenAI, Gemini, Claude, and modern cloud technologies.

Experience: 5+ Months Professional Experience in AI Development

TECHNICAL SKILLS

AI & ML: Generative AI, LLMs, RAG, AI Agents, Multi-Agent Systems, Prompt Engineering, Machine Learning, Deep Learning, NLP, Computer Vision, YOLO, OCR

Frameworks: TensorFlow, PyTorch, Keras, Scikit-Learn, OpenCV, MediaPipe, LangGraph, LangChain, NumPy, Pandas, Matplotlib

Backend: FastAPI, Node.js, Express.js, REST APIs, JWT Authentication, MongoDB, Firebase

Frontend & Tools: React.js, Next.js, React Native, Tailwind CSS, Docker, Git, GitHub, AWS, Render, Vercel

PROFESSIONAL EXPERIENCE

AI Developer

SparkTech Agency | Jan 2026 – Present

- Built LLM-based chatbots, RAG systems, and multi-agent AI workflows.
- Designed scalable AI backends using FastAPI, Node.js, and MongoDB.
- Integrated OpenAI, Gemini, Claude, OCR, YOLO, and Computer Vision solutions.

PROJECTS

AI Fitness Coach Platform

Technologies: OpenAI, Claude, FastAPI, React Native, MongoDB

- Developed AI-powered workout and nutrition recommendation systems.
- Built conversational fitness coaching and personalized planning features.
- Integrated wearable health data and AI-driven user insights.

Restaurant Inventory Management System (RistoAI)

Technologies: OCR, OpenAI, FastAPI, MongoDB

- Built AI-assisted invoice processing and inventory automation.
- Developed food-cost analysis and business intelligence features.
- Automated supplier and expense management workflows.

Multi-Agent AI Platform(AgentHub)

Technologies: LangGraph, OpenAI, Gemini, FastAPI

- Designed multi-agent AI workflows with memory and RAG.
- Implemented document understanding and knowledge retrieval systems.
- Optimized AI response quality and execution performance.

AI Product Content Generation System

Technologies: OpenAI, Computer Vision, FastAPI

- Automated product title and description generation.
- Developed AI-powered product image enhancement workflows.
- Built content generation pipelines for e-commerce platforms.

Construction Safety Monitoring System

Technologies: YOLO, OpenCV, Python, Computer Vision

- Developed real-time safety monitoring using YOLO object detection.
- Detected PPE compliance including helmets and safety vests.
- Built automated safety violation detection and alert systems.

EDUCATION

Daffodil International University

Bachelor of Science (B.Sc.) in Software Engineering

2023 – Present

ACHIEVEMENTS & ACTIVITIES

- Built and deployed multiple AI-powered applications for international clients.
- Active contributor on GitHub with projects in AI, Machine Learning, and Full-Stack Development.
- Regularly practice Data Structures and Algorithms on Codeforces.
- Continuously exploring Generative AI, AI Agents, RAG Systems, and Computer Vision technologies.
